Attachments:	📄 Win11_64bit_2.0_No_Apply to all_button.mp4
Severity/Importance:	2-Major
Error Type:	Functional

Steps to reproduce:

1. Open Kimba2
2. Open a folder that contains images
3. Select more than one images
4. Click Edit
5. Click Optimize
6. Pay attention to the result

Actual result: The "Apply to all" button is not visible when the optimize window is opened by selecting multiple images. Please see Win11_64bit_2.0_No_Apply to all_button.mp4

Expected result: The "Apply to all" button should be visible when the optimize window is opened by selecting multiple images.

Additional information:

- When selecting multiple images at once and clicking Optimize, the first selected image does not open.

Environment:	**OS:** Windows 11 pro, 64-bit		

Attachments:	🖼 Kimba_Requirements_Options_pop up.png 🖼 Win11_64bit_2.0_Options_pop up.png
Severity/Importance:	4-Minor
Error Type:	GUI

Description

Steps to reproduce:

1. Open the Kimba 2 application
2. Click Options
3. Pay attention to the pop-up window

Actual result: ''OptionsDialog'' is displayed instead of ''Options'', when options is clicked. Please see Win11_64bit_2.0_Options_pop up.png

Expected result: As per the requirements, clicking on the option should display the pop-up window that says "Option". Please see Kimba_Requirements_Options_pop up.png
